FIELD DESCRIPTIONS:

  YEAR          Indicates the statistical year of the file. For example: The
                year 2012 would be shown as "2012".

  TYPE_PROC     Indicates the type of traffic as import or export.

  PORT          Contains the port code used by the Army Corps of Engineers
  to
                represent ports in the United States. There are some cases
                where this field is null (United States origin or
  destination
                is not in a port area - see WTWY below).

  PORT_NAME     Contains the description for the U.S. port code.
```

```
WTWY            Contains the waterway code used by the Army Corps of
Engineers
                to represent waterways in the United States. All records
will
                have a four digit code for this field.

WTWY_NAME       Contains the description of the waterway code.

STATE           Two letter abbreviation of US state/territory where US
                port/waterway is located.

FORPORT         Contains the 5 digit foreign port code (schedule K) where
the
                vessel is loaded or off-loaded.

FORPORT_NAME    Contains the description of the forport code.

CTRY_F          Contains the 4 digit foreign country code of the foreign
port
                (schedule C).

CTRY_F_NAME     Contains the description of CTRY_F code.

CTRY_C          Contains the 4 digit foreign country code associated with
the
                origin (if import)/destination (if export) of the commodity
                (schedule C).

CTRY_C_NAME     Contains the description of CTRY_C code.

PMS_COMM        Contains a 2 digit code for describing commodities by the
U.S.
                Army Corps' Lock Performance Monitoring System (LPMS). The
                LPMS commodity codes were standardized to reflect the
                hierarchical structure of the Standard Industrial Trade
                Classification (SITC) Revision 3 commodity codes.

PMS_NAME        Description of 2 digit PMS_COMM code.

TONNAGE         The cargo tonnage in short tons (2,000 lbs).

COASTDST        The region of the United States in which port is located:

                1 = North Atlantic
                2 = South Atlantic
                3 = Gulf of Mexico
                4 = South Pacific
                5 = North Pacific
                6 = Great Lakes
                7 = Hawaii
                8 = Alaska
                9 = Puerto Rico/Virgin Islands
```
